

PAID BIOMEDICAL RESEARCH OPPORTUNITY FOR First2 Network Students

WV-INBRE program will provide funding for **First2 Network students** attending West Virginia University and Marshall University to participate in biomedical science research. A maximum of 6 internships (3 for WVU/3 for MU) will be available. Funding will be provided to pay the student \$10/hour to work up to 15 hours per week for 25 weeks on the research for the 2020-2021 academic year. Projected start date of the internship is October 1, 2020 and funding will continue until April 30, 2020. End date is flexible. It could be until July 31, 2021. It depends on when funding allocation for student is exhausted. For more information, go to the WV-INBRE website at <http://www.wv-inbre.net>. Then, click on “Internship Programs”, then click on “HSTA: Health Sciences Technology Academy”.

(First2 students will use the HSTA internship application for the time being.)

More information will be provided about the program and you will be able to view the Mentors Abstract Directory for researchers at WVU and Marshall University and their research interests. This directory can be viewed online at the [WV-INBRE-Participating WVU/Marshall University Mentors Directory](#) link.

The application can be filled out online under [Online Application for Research Internship for HSTA Scholars at WVU & Marshall University](#) link.

Deadline for completed application and accompanying documents is September 1, 2020.

NOTE: First2 Network students will need to indicate that they are members of the First2 Network. Please do so by typing “First2” in the field for First Name. For example. If your name is Thomas, in the First Name field, type, “First2 Thomas”.
